

Goal: The goal of this app is to allow people to have the full experience of ordering and enjoying a meal at a restaurant without having to necessarily interact with anyone due to their respective backgrounds such as social anxiety, germaphobic, etc.

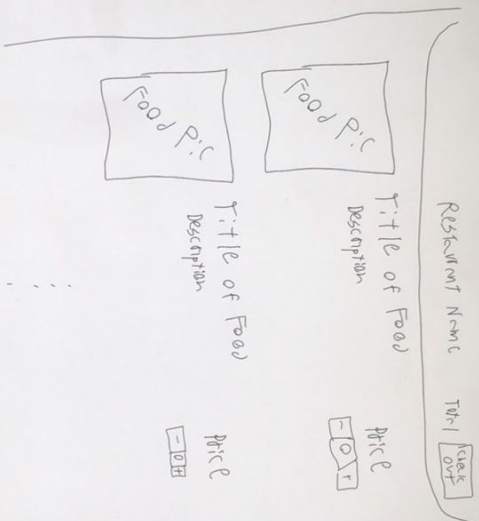

Feature List:

- Viewing Menu
- Take-Out/Dine-In Ordering
- Chat with Wait Staff
- Payment Processing + Tips

Non-Intuitive Features:

- Viewing Menu(Next Page)

Let's the customer
view the menu and
add items to their
cart

This shows each item
on menu and gives the
name, picture and description.
It also shows the price and
allows the customer to choose
how many of each item they
want.

In the top right there is
the total and check out
buttons

Allows the user

Item

Price

This is the final checkout

- Take-Out/Dine-In Ordering
