

Design Spring Day 2

Application Goal:

The goal of Group 4s application is to create an all-in-one app for restaurants and their customers to use to enhance the dining experience. The app seeks to expedite some processes while also adding some accessibility features for those who are mute, deaf or otherwise impaired. For example, our application would include a way to message the wait staff in case they aren't able to articulate with words. This also allows more picky customers to customize their experience by determining how frequently the waiters visit the table, quicker ordering and communication, etc. This increases rating and support for the restaurant and creates a better dining experience for guests.

Feature List:

- Reservations
- Online Ordering
- Dine-in Ordering
- Viewing Menu
- Chat with wait staff
- Payment processing + tips

Crazy Eights Sketches:

The sketches are arranged in a 2x4 grid, representing eight different cards in a Crazy Eights deck. Each card contains hand-drawn UI elements for a virtual guest check system.

- Card 1 (Top Left):** Features a 'Virtual Guest Check' title, a 'Saving' button, a 'Debit' button, and several horizontal bars representing data fields.
- Card 2 (Top Right):** Includes a 'Comment' button, a 'Submit' button, a 'Total \$5' label, and a 'Cash Debit GC?' label.
- Card 3 (Second Row, Left):** Titled 'Guest Check', it shows a 'Remized' button, a 'Sub Total \$' label, a 'Tip?' button, a 'Cash Debit GC' label, and a large shaded area at the bottom.
- Card 4 (Second Row, Right):** Features a 'Waitress \$' label, a 'Scan Card' button, and a large shaded area.
- Card 5 (Third Row, Left):** Titled 'Meal Concluded', it shows a 'Scan Card' button, a 'Check Total' label, a 'Payments' label with '123' and '123' below it, and a 'Questions/Comments' label.
- Card 6 (Third Row, Right):** Includes a 'End Message' button, a 'Check Total' label, a 'Payments' label with '123' and '123' below it, and a 'Questions/Comments' label.

Hand-drawn sketch of a mobile app interface. At the top, there are several horizontal bars representing a header or navigation menu. Below this, there are several rectangular boxes of varying sizes, some containing wavy lines representing text. A small circle with an 'X' inside is located near the bottom left of this section.

Hand-drawn sketch of a mobile app interface. The top section is labeled "Suggestions" and contains several horizontal bars. Below this, there are several rectangular boxes, some containing wavy lines representing text. A small circle with an 'X' inside is located near the bottom left of this section.
