Dagim Worku

Goal: The goal of this app is to allow people to have the full experience of ordering and enjoying a meal at a restaurant without having to necessarily interact with anyone due to their respective backgrounds such as social anxiety, germaphobia, etc.

Feature List:

- Viewing Menu
- Online Ordering
- Dine-In Ordering
- Chat with Wait Staff
- Payment Processing + Tips

Storyboard:

This feature allows the customer to come in & check in to verify who they are. They can either do that through their fingerprint or answering certain questions.

To place on order, the customer is able to look at the menu while talking/communicating with the waiter/waitress. Once the order has been placed, the amount for each item is displayed.
